

# Utilize Google Apps to **Engage Students** and *Streamline* Your Course

Presented by Curt Pavia  
WACC 2019

canvas

# Objectives

At the end of this session, participants will be able to:

1. Create and link a collaborative Google Doc in a module
2. Embed a Google Doc in the Canvas Syllabus and a Page
3. Create an interactive image and poll to embed in Canvas

# Getting Started

## What you need:

- *Canvas site*
- *Google Account*
  - *Personal or institution*

## For more integration:

*Activate Google Drive as a **Registered Service** in your Canvas account (in Account Settings)*

***Additionally**, add the **Google Apps LTI** for quick access in your course navigation (Course Settings > Apps)*

# Getting Started

*The techniques in this presentation will work even if your institution does not have the Google LTI installed at the admin level, and if you are just using your personal Google account.*

# Let's Take A Look...

# Link Resource Page or Syllabus

# Instructor Uses

- Syllabus / Course Schedule
- Class Agendas
  - lesson plan, to-do lists
- Prepared Feedback Responses
  - for quizzes, exams, assignments
  - copy/paste into Canvas feedback areas
- Resource Pages
  - containing links to resources
  - private or publish for students
- Notes for Lectures/Classes

# Embedding

Embedding means that the document will show up *inside* the Canvas page.

Google Docs, Slides, Sheets, and Forms can be embedded.

Requires HTML code:

```
<iframe src="PUT_URL_HERE" width="100%" height="600px"></iframe>
```

*Note: do not copy/paste code from this slide. Copy from Canvas or type it in.*
